#### Series Specifications:

| Nominal Wavelength | 635 nm |
|--------------------|--------|
| Output Type        | CW     |
| Laser Source Type  | Diode  |

#### **Overview:**

The Brightline Premium Series of Lasers are ideal for any application where highly visible projections, such as lines, dots, crosses, complex patterns, need to be projected onto a surface. These diode lasers are designed to withstand day to day use in harsh industrial environment. The waterproof aluminum and brass housing protect the laser diode, electronic circuitry and precision optics. These lasers incorporate focus-adjustable optics, greatly increasing the precision for tasks requiring the highest level of accuracy or greater working distance.

#### **Key Features:**

- Output Power: Up to 80 mW
- IEC Safety Classification: 3R (no additional safety eyewear required)
- Minimum achievable spot/line size: 25 mm at 30 cm
- Package Includes: Laser mounted in block, adjustable mounting bracket for easy positioning of projection onto a surface, and 110/240V AC power supply
- Available Projection Colors: Red, Green, Blue, Violet
- Projection Type: Line, Dot, Cross
- · Casing: Machined Aluminum anodized Red
- Water Resistant: IP67
- Operating Temperature Range: 0° to 120°F (-20°C to 50°C)
- Operating Life: 8,000+ hours of continuous use

#### **Specifications:**

This spec sheet has been generated specifically for part number BLQ005266, per your request, and data for the entire series is also displayed for your reference. The specs which are specific to BLQ005266 have been highlighted below in red + bold.

CW: All specifications are based on performance at full output power and after the specified warmup period. Output characteristics may change if the laser is run at a different power level.

Q-Switched: Specifications are based on the laser pulsing at the specified design frequency. Output characteristics may change if the laser is run at a

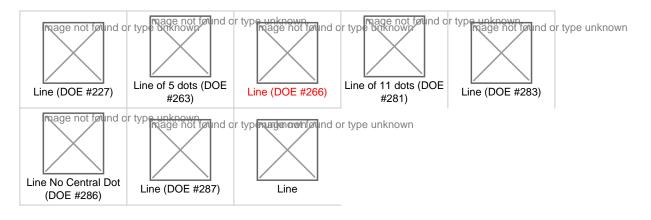

different frequency.

#### **Power Supply Options:**

The Brightline Premium series of alignment lasers accept direct DC input of 3 to 6 VDC. The power connector is a 5.5 mm OD, 2.1 mm ID DC Barrel Jack (center pole positive), but non-waterproof connectors are compatible. If you do not want to provide DC current directly, we recommend that you use our AC power supply. The model number for the standard North American AC Power Supply is ABF05AWXX and you can find complete details here: www.laserglow.com/ABF.

**Projection Types:** 

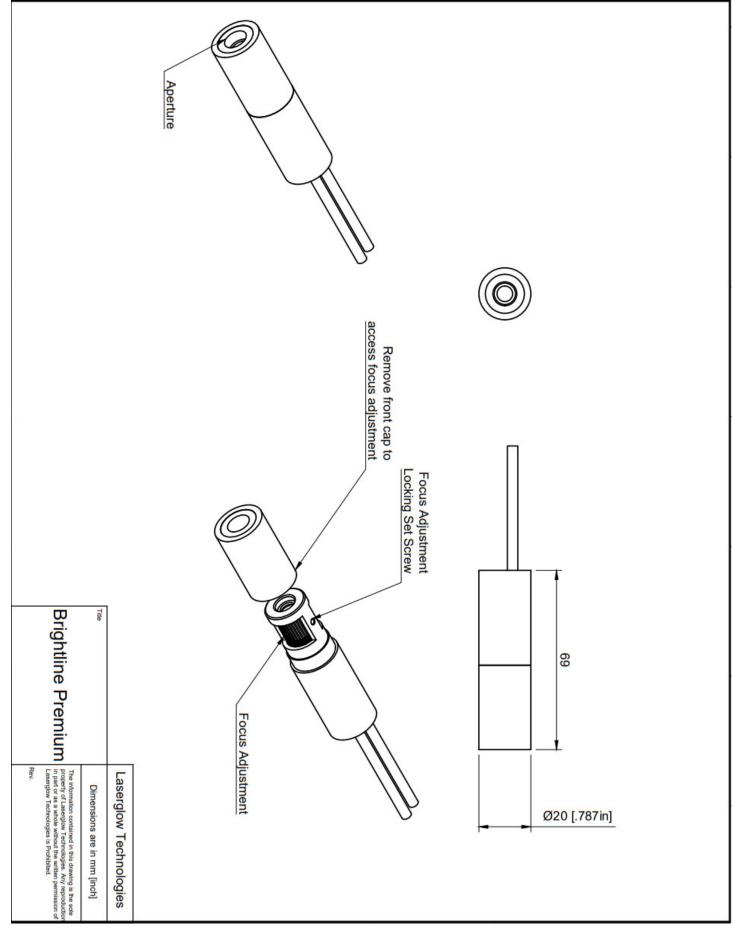

The folowing projection types are available for this laser series.

### **Regulatory Classification:**

The model you have selected (BLQ005266) requires the following safety label(s):

#### Accessories:

The most popular accessories for model BLQ005266 are shown below. For additional details regarding these or other accessories please see our website or contact us directly.
