

# **Laserglow Product Datasheet**

# LPS-0355 AOM Q-Switched DPSS Laser System

DPSS

#### **Overview:**

Laser Source Type

The LPS-0355 Series of Diode-Pumped Solid-State (DPSS) AOM Q-Switched Lasers are ideal for applications requiring the highest available peak power and/or single pulse energy at 355 nm. The embedded AOM gives the user direct control over the output pulses, enabling a specified frequency or even a single pulse to be emitted.

These lasers are commonly used for materials processing, marking, Raman Spectroscopy, biological experimentation and a broad spectrum of other applications. The driver is available as a complete FDA-compliant system or as an O.E.M. component with significantly reduced dimensions.

Please note that for UV Marking and Machining, a beam delivery device is necessary and is not included with the purchase of the laser.

#### **Key Features:**

- AOM q-switch allows for active control of pulses
- Air cooled no need for water cooling or external chiller
- · Lightweight, compact design
- Efficient DPSS technology runs on standard AC power (85 264 V, 47 63 Hz)
- >5,000 hours continuous maintenance-free operating life
- FDA CDRH Compliant Class IV enclosure
- 48-hour replacement coverage available for an additional fee on specific models

#### Package Includes:

- Laser Head
- Driver/Power Supply
- Power Cable
- BNC Connector (LabSpec models only)
- Keys, Safety Interlock
- Hard-shell Carrying Case

### **Specifications:**

This spec sheet has been generated specifically for part number P35-W, per your request, and data for the entire series is also displayed for your reference. The specs which are specific to P35-W have been highlighted below in red + bold.

| Output Power (mW)                              | >100, >300, >500   | >1000, >2000, >3000         |  |
|--|--|-----------------------------|--|
| Single Pulse Energy<br>(µJ)                    | 10, 30, 50   | 50, 70, 100, 150            |  |
| Optimal Pulse<br>Frequency (Hz)                | 10000  | 4000, 20000                 |  |
| Output Power<br>Stability (%RMS/4h)            | <b>&lt;3</b> , <b>&lt;5</b> , <b>&lt;10 &lt;3</b> , <b>&lt;5</b> , <b>&lt;10</b> |                             |  |
| Central Wavelength (nm)                        | 355.1  | 355.1                       |  |
| Wavelength<br>Tolerance (+/- nm)               | 1  | 1                           |  |
| Divergence (mrad, full angle)                  | <2   | <1, <3                      |  |
| Beam Dimensions<br>(mm, 1/e <sup>2</sup> )     | 4  | 1, 2.5                      |  |
| Warm-up Time<br>(minutes)                      | 10   | 10                          |  |
| Avg. Pulse Duration (ns)                       | 15   | 15                          |  |
| M <sup>2</sup>                                 |  | <1.3                        |  |
| Polarization Ratio                             | >100   | >100                        |  |
| Operating<br>Temperature Range<br>(°C)         | 15 to 35   | 15 to 35                    |  |
| Max. TTL<br>Modulation Freq.<br>(Hz)           | 50000  | 100,000                     |  |
| Modulation Input<br>Signal                     | 0-5 VDC  | 0-5 VDC                     |  |
| Max. Power Input<br>Duty Cycle                 | 100%   | 100%                        |  |
| Standard Warranty<br>(months)                  | 12   | 12                          |  |
| MTTF (operational hours)                       | 5000   | 5000                        |  |
| Weight of Product or<br>Laser Head (kg)        | 6.1  | 10.2                        |  |
| Beam Height from<br>Base Plate (mm)            | 93.5   | 113                         |  |
| Dimensions of<br>Product or Laser<br>Head (mm) | 346 (l) x 140 (w) x 125 (h)  | 420 (l) x 142 (w) x 144 (h) |  |

CW: All specifications are based on performance at full output power and after the specified warmup period. Output characteristics may change if the laser is run at a different power level.

Q-Switched: Specifications are based on the laser pulsing at the specified design frequency. Output characteristics may change if the laser is run at a different frequency.

## **Power Supply Options:**

These lasers are available with several different power supply options. The model that you have selected is highlighted below, and any other options are shown for easy reference.

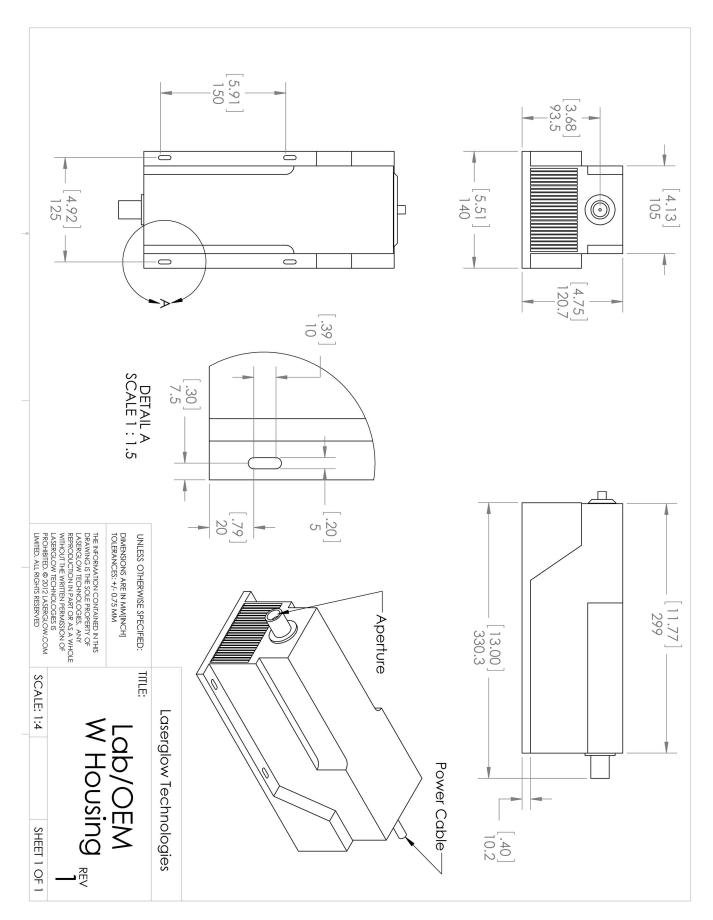

|                             | Power Supply Type:          | AW                             | AZ                             |
|-----------------------------|-----------------------------|--------------------------------|--------------------------------|
| FDA-Compliant AOM<br>Driver | Input Power                 | 85v to 264v                    | 85v to 264v                    |
|                             | Power Supply<br>Weight (kg) | 6.88                           | 12.4                           |
|                             | Dimensions (mm)             | 334 (l) x 300 (w) x<br>123 (h) | 376 (l) x 485 (w) x<br>133 (h) |

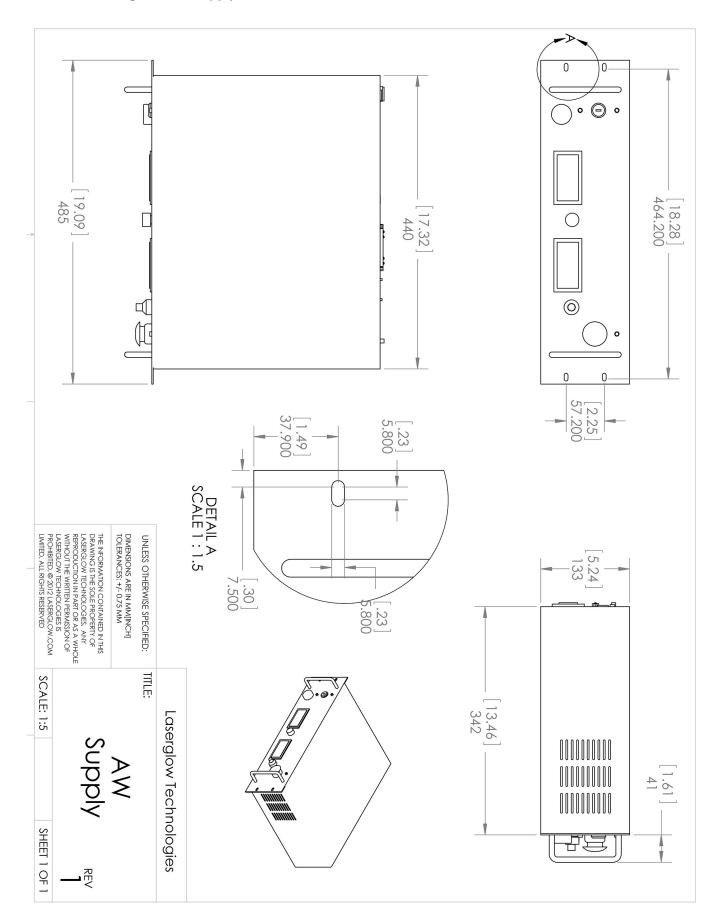

\*Power supply may not be exactly as shown, see dimensional drawings on next 2 pages. \*Dimensions for fiber-integrated (I\_) include laser head packaged inside.

### **Regulatory Classification:**

The model you have selected (P35-W) requires the following safety label(s):

### Accessories:

The most popular accessories for model P35-W are shown below. For additional details regarding these or other accessories please see our website or contact us directly.

| Part Number | Description  |                     |
|-------------|--|---------------------|
| AGF5327XX   | LSG-532-NF-7 Fit-Over Safety Goggles 532nm<br>Output: OD 7+ at 190-532 nm<br>CE Certified<br>Full Details: www.laserglow.com/AGF                   |                     |
| ACALBNWXX   | Carrying Case-104<br>Holds Lab/OEM N or W size Standard/Labspec laser<br>Full Details: www.laserglow.com/ACA                                       | Included With Laser |
| AFS2002XX   | Armored Fiber With SMA 905 Connectors 200um Core Multimode 2 m length Full Details: <u>www.laserglow.com/AFS</u>                                   |                     |
| AFF2002XX   | Armored Fiber With FC/PC Connectors 200um Core Multimode 2m length Full Details: www.laserglow.com/AFF   |                     |
| ACSUV1HXX   | SMA Fiber Coupler/Collimator for ultraviolet wavelengths (266 to 399 nm)<br>11mm diameter input lens<br>Full Details: <u>www.laserglow.com/ACS</u> |                     |
| ACFUV1HXX   | FC/PC Fiber Coupler/Collimator for ultraviolet wavelengths (266 to 399 nm)<br>11mm diameter input lens<br>Full Details: www.laserglow.com/ACF      |                     |
